FOR SCHOOLS

◦ WHO ARE WE? ◦

TRIBE stands as a leading provider of bushcraft and outdoor learning experiences and is located in the picturesque surroundings of Holmesfield, Dronfield. Our primary mission is to foster a deep connection between individuals and the awe-inspiring wonders of nature.

Discover the transformative power of bushcraft for schools! Engaging in bushcraft activities not only nurtures a deep connection with the natural world, but also fosters essential life skills. We offer tailor-made bushcraft sessions and courses designed to cater to the unique needs of each school. Through our carefully curated programmes, students gain hands-on experience in wilderness living skills, teamwork, problem-solving, and self-reliance.

By immersing themselves in the natural environment, the children will develop resilience, resourcefulness, and a profound appreciation for the world around them. Join us on an unforgettable journey of discovery, where learning meets adventure!

◦ KEY OUTCOMES ◦

- Adventure • Fun • Experiential learning
- Team building • Problem solving
- Self reliance & resourcefulness • Mental well-being
- National curriculum links

◦ MAIN ACTIVITIES ◦

- Fire Lighting • Shelter Building • Water Acquisition
- Tool Use • Willow Weaving • Foraging • Tracking
- Camp Crafts • Knots & Lashings • Camouflage & Concealment and lots more...

THE GREAT OUTDOORS

• CURRICULUM LINKS •

HISTORY

PRIMITIVE TECHNOLOGY AND TOOLS

Problem-solving and crafting using simple hand tools. The tools and techniques are often adaptations of those used in Stone Age and Iron Age settlements.

SCIENCE

THE NATURAL WORLD

A key part of bushcraft is understanding the natural environment and working in harmony with nature. Pupils will learn to identify and categorise different plants, determining their uses based on their physical characteristics. During fire lighting, pupils learn about the fire triangle and friction.

PHYSICAL EDUCATION

OUTDOOR AND ADVENTUROUS ACTIVITY

Our TRIBE courses class as outdoor and adventurous activity, with pupils experiencing new activities that have the added benefit of turning into wholesome, affordable, and sustainable hobbies for them going forward.

TECHNOLOGY

KNOWLEDGE, SKILLS, COOKING AND NUTRITION

Bushcraft and problem solving / design go hand in hand. Pupils will use different tools to make functional items, selecting natural materials and applying technical knowledge to create strong items and structures. Pupils will have the opportunity to produce simple dishes using different outdoor campfire-cooking techniques

GEOGRAPHY

HUMAN AND PHYSICAL GEOGRAPHY

Learning how we have impacted nature is key to helping to protect it. Nature provides everything we need to survive including energy, food, minerals and water. Learn how to read the landscape by using a map & compass and reading grid references

ART & DESIGN

CREATIVITY USING NATURAL MATERIALS

Bushcraft offers many ways to be expressive, and at TRIBE there are plenty of opportunities for creativity. In our courses, pupils will be introduced to natural materials that can be used to add colour and texture to their art. They will be able to take inspiration from the patterns that occur in nature.

• FACILITIES & AMENITIES •

MAIN CAMP

Complete with seating for up to 40 children, a central campfire and a parachute canopy.

Main Camp serves as a central hub for all TRIBE courses. It functions as both an open-air classroom and a gathering point for children to regroup following their outdoor adventures.

COMPOST TOILETS

At TRIBE, our primary goal is to provide every guest with an exceptional bushcraft experience, while also ensuring that every aspect of their visit is enjoyable.

To enhance the overall relaxation of spending time in nature, we have custom built two spacious onsite compost toilets.

KIT ZONE

Maintaining cleanliness and orderliness is crucial for enjoying quality outdoor time.

We've created a designated area known as the 'Kit Zone' to stow away bags, coats, and other belongings, allowing us to fully immerse ourselves in the natural beauty surrounding us.

ACCOMMODATION

While the idea of spending a night beneath the starry skies is truly enchanting, there are occasions when unfavorable weather takes charge.

In circumstances of severe weather conditions, we provide charming and traditional teepees as cozy shelters to sleep in.

TEACHERS AREA

We understand the importance for teachers to have a private space away from the children.

The location of the designated 'Teachers Area' means you can oversee the activities taking place while leaving you ample room to focus on your own tasks including tea, coffee and biscuits.

CATERING

Following a day of adventure, the next anticipation will be the dining experience, and we have got this covered.

During our residential courses, we offer wholesome, well-balanced, and tasty meals to ensure everyone's energy levels satisfied and replenished.

• TRIBE REVIEWS •

A selection of reviews from the children who have experienced bushcraft at TRIBE.

TRIBE!

Tribe was amazing! The activities, camp, help, leaders and all were everything you would need. You could count on Tribe for having anything! I really recommend it to anyone who loves nature and the outdoors. It is a lovely place to go and try new things!

All the activities have taught me loads! Singing, problem solving, fire lighting, knots, den building, good values and following the rules! Singing songs was great fun. Silly and full of nonsense! Problem solving was a mixture of work and messing about! Anyone could do it! Fire lighting was safe, don't worry! Concentration, safety, marshmallows, light, everything you could imagine! Knots are definitely hard work, but if you need help, it's always there! Den building I didn't do, but from everybody's mouths has been positive. Good values are important, and you're lucky you'll find them at Tribe! Rules seemed great there!

★★★★★ - TRIBE

★★★★★ - TRIBE"

"Again, I totally recommend this, so get on your feet and Go!

TRIBE is where you'll find guy ropes, marshmallows and fun!

Rules were simple and kept everybody safe
Imagine walking through lush green trees, leaves rustling under your feet
Bees, butterflies, flies, grasshoppers, squirrels, badgers love to come!
Everything is packed full of hard work, nonsense and laughing

Ignore bad feelings, think about TRIBE!
Save your thoughts and have fun in the forest!

Find anything, leaves, pinecones, leaves, twigs, log benches, happiness
Unicycles, chocolate, TV, nothing compares to TRIBE!
Never forget anything you've done there!"

TRIBE - ★★★★★★/5!"

"Dear Pete

TRIBE was amazing fun it could easily get a 5/5. I loved all the activities especially the fire lighting. All your staff were really kind and I loved main camp it was amazing and the songs were funny and made me laugh. I liked the den building a lot and when we ate marshmallows. I loved the nature around main camp with all the trees and the bridge. I liked the puzzles, my favourite was the number puzzle

The walk down to camp and back up was beautiful. Tribe was one of the best school trips ever and our school was the first ones to go! I loved that we got to eat our lunch near the fire. I will remember this trip forever and I loved the certificate. The boys all got to go and have a wild wee which was funny. I did not want to leave but I had to Thank you for all the fun.

(P.S Pierce [s group] was an amazing group) From Harrison Leader"

OUR MISSION

The mission of TRIBE is to reconnect people with nature by teaching both traditional and modern bushcraft and outdoor living skills. By imparting this knowledge, we aim to foster a deeper understanding of the importance of nature, empowering individuals to become better stewards of the environment. With our expertise, we aspire to reach and educate as many learners as possible, striving to become the UK's foremost provider of bushcraft education.
